

Stone Mosaic Dimensional Diamonds Workshop With Jan Krentz – Supply list

FABRIC REQUIREMENTS

JAN'S NOTE:

ADVANCED PREPARATION IS RECOMMENDED! Pre-sew the strip sets before class OR (if you are attending a one-day workshop) bring an interesting multi-colored striped fabric to class for the cutting technique.

There are two methods of construction for this quilt. In class, we will learn about both methods. Instruction will cover the Faux Diamond technique, which is easier. If working with fabric scraps rather than yardage, you may prefer to use the Quarter Diamond method. Please refer to the *Stone Mosaic* section in *Quick Diamond Quilts*, pages 77-82. Cutting details are listed on page 78 for both methods.

Fabric Cutting chart – PDF file – click the link to print (must have Adobe PDF reader installed on your computer)

Print Color Chart to identify the fabrics you are working with. Your fabrics may vary in color from the gold & green combination.

Print FABRIC STRIP LABELS to pin to each piece & help identify strips for class.

Jan's note: Cut in class: faux diamond rectangles from strip sequences – specific technique is part of class instruction.

Equipment & Tools

Please label all equipment with your name

Sewing machine and related equipment:

- Sewing machine, foot pedal, lint brush, electrical cord, bobbins
- 1/4-inch presser foot
- Sharp sewing machine needles
- Multi-outlet power strip
- Heavy-duty extension cord (garage weight)
- Thread to match project, 3-4 wound bobbins

Book, Iron and Design surface:

- *Quick Diamond Quilts* book by Jan Krentz (2010)
- Iron (1 per 3–4 students OK)
- Rigid ironing surface such as a June Tailor Cut 'n Press or home-made pressing pad Rotary cutter with new blade and cutting mat
- design surface – large piece of flannel, batting, fleece, or similar. (an inexpensive option is a large, square or rectangular flannel-backed vinyl tablecloth)
- 100-200 safety pins
- straight pins
- seam ripper
- stiletto or sewing awl
- thread snips

Rotary cutting rulers and other supplies:

- 6" x 24" – used at home to cut strips and 6" x 12" straight ruler – used in class to cut units
- glue stick – use to affix fabrics to **Color Chart** before class, printed from this website. Bring to class.
- 3-ring notebook for supply list, color chart, and handouts you'll receive in class
- 1 roll painter's tape (it has different adhesive than other tapes. I like the 3M brand – looks a little dull – not the smooth & shiny one for minimal stickiness)
- a few sheets of blank paper
- pen, pencil for writing notes
- permanent marking pen such as a Sharpie or Ident-a-pen
- print paper labels from this website (cut with paper scissors as you work; pin each label to fabric strips as you prepare for class)

BRING TO CLASS / OPTIONAL ADVANCED PREPARATION:

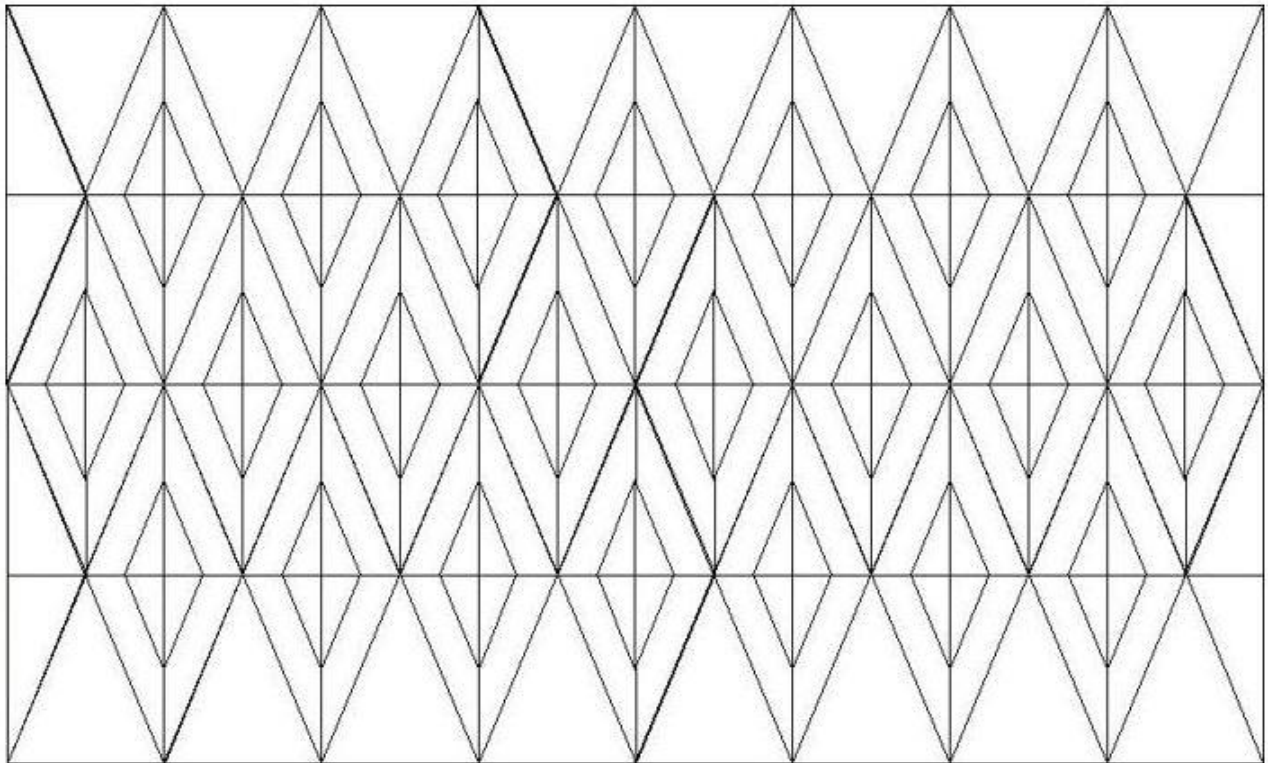

- all excess fabrics – bring with you to class.
- OPTIONAL – 1 Day CLASS: recommended advanced sewing prep

Stone Mosaic Dimensional Diamonds Workshop

With Jan Krentz – Supply list

Optional Equipment – recommended if you own them:

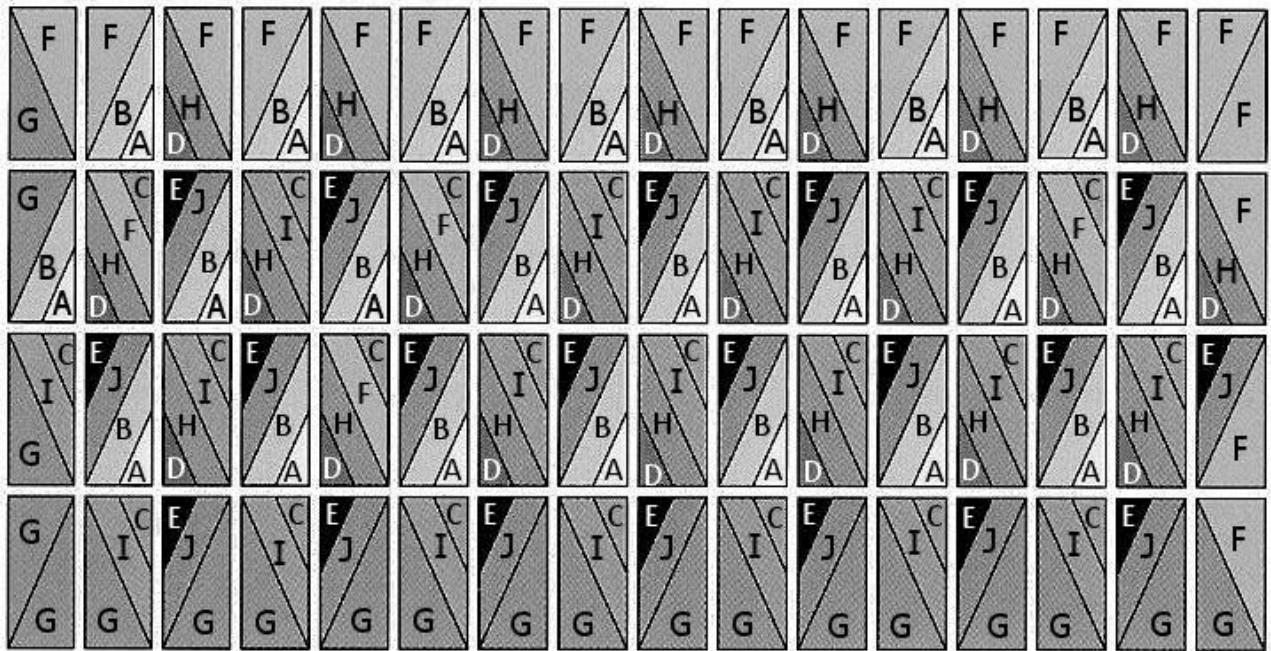

- digital camera (will be used as a design tool in class – strongly encouraged)
- 3M Command Hooks & binder clips (see below)
- 2 rubber door stops (used to tilt the machine towards you for better visibility of the sewing surface)
- chair cushion (to raise you for better sewing angle & comfort on a hard metal or plastic chair)
- table leg extenders (see link below for more detail.)
- Reading glasses (if you use them)
- Sack lunch, water or small snack (ask organizer about meal provisions)
- acrylic sewing machine extension table (fits around your machine - VERY useful when precision piecing)
- Personal fan / portable light
